

Aditya Vishwakarma – Aspiring Cloud & DevOps Engineer

☎: 9318365441 | ✉: adityavishwakarma44414@gmail.com | 📍 Varanasi | [in](#) [LinkedIn](#)

Aspiring Cloud & DevOps Engineer with hands-on experience in AWS, Linux, Terraform, Docker, Kubernetes and Jenkins. Seeking an internship or entry-level opportunity to build reliable cloud infrastructure and automated CI/CD workflows.

TOOLS & TECHNOLOGIES

Cloud: AWS: EC2, S3, IAM, VPC, AWS CLI | **Scripting:** Python, Shell Scripting

DevOps: Docker, Kubernetes, Jenkins, Terraform, Git, GitHub, Linux

Automation: CI/CD, Infrastructure as Code, Cron, kubectl, Postfix, SMTP

KEY PROJECTS EXECUTED

Project: AWS Infrastructure Automation using Terraform

- Provisioned AWS VPC infrastructure with a public subnet, Internet Gateway, route table and security group.
- Automated EC2 deployment with Terraform and configured Nginx installation/startup using user_data.
- Hosted a static HTML/CSS website on Amazon S3 with bucket policy, public access settings and static website hosting.
- Practiced terraform init → validate → plan → apply and managed AWS resource dependencies and state.

Project: AWS Usage Monitoring & Automated Reporting

- Developed a Bash script using AWS CLI and jq to report EC2 instances, S3 buckets, Lambda functions and IAM users.
- Scheduled daily execution with Cron and captured output automatically in log files.
- Configured Postfix with Gmail SMTP relay, SASL authentication and TLS to email daily AWS usage reports.
- Applied Linux administration, shell scripting, JSON parsing, scheduling and SMTP automation.

Project: End-to-End CI/CD Pipeline for Django Todo Application

Demo: [LinkedIn Video](#)

- Built a 6-stage Jenkins pipeline: Fetch → Build → Test → Push → Update Manifests → Deploy.
- Containerized and tested the Django application with Docker and validated the running app using curl.
- Pushed versioned Docker images to Docker Hub using Jenkins build-number tags.
- Automated Kubernetes manifest updates and deployed with kubectl, enabling rolling updates.
- Configured a dedicated Jenkins EC2 agent and managed GitHub PAT, Docker Hub credentials and Kubernetes kubeconfig.

EDUCATION

- **B.Tech – Computer Science & Engineering** | OP Jindal University | Expected 2027 | CGPA: 7.23

Open to Cloud & DevOps Internships | Entry-Level DevOps / Cloud Roles
